- MicroTech holds numerous patents for its On-Premise and Hybrid Private Cloud solutions and our team of professionals can boast more than a decade of experience in the cloud computing space
- Strong financials, debt free, excellent D&B ratings and 15 Years of profitable financial performance
- More than 2M products and solutions on our SB/SDVOSB designated GSA Schedule 70
- Partnerships with more than 100 of the top Original Equipment Manufacturers (OEMs) including Adobe, Cisco, Dell, HP, IBM, Microsoft, Motorola, Oracle, Ricoh and SAP just to name a few

Since starting the business in 2004, MicroTech grew from a kitchen table startup into a profitable half-billion-dollar business with skilled professionals in more than 40 states and numerous overseas locations supporting hundreds of prime contracts throughout Government and Fortune 500 companies. MicroTech provided, and continues to provide information technology (IT), network, cybersecurity, managed services, cloud, and product solutions. In 2014, 2015 and 2018 MicroTech sold several large cognizable business units allowing MicroTech to recertify with the SBA as a Small Business (SB). MicroTech has also gone through the stringent Vets First Verification Program having been verified and certified by the Center for Verification and Evaluation (CVE) as a Service-Disabled Veteran-Owned Small Business (SDVOSB) by the U.S. Department of Veteran Affairs.

MicroTech's ability to win is unparalleled, having won some of the biggest and most sought-after IT, network, telecommunications and technology contracts in the Federal Government including the \$50B 15-year GSA EIS contract, the VA, Microsoft Support Contract, the Social Security Support Services Contract and the Presidential Transition Team Contract. Our customers continually realize the business advantages of using MicroTech's innovative and reliable solutions and processes to get the job done. MicroTech's long list of repeat customers who rely on our consistent record of performance, delivering solutions on time, within budget and at the highest quality standards is evidence of our commitment to excellence in service. Our corporate partnerships include excellent working relationships with many of the largest, top-tier systems integrators, established corporate partnerships and industry-leading manufacturers. Several national organizations have highlighted MicroTech as one of their best of breed companies including Deloitte, Washington Technology, SmartCEO, Washington Business Journal, CRN, Digital Software Magazine and Inc. Magazine, not to mention the awards for excellence we have received from DOD, VA, GSA, USDA, SBA, FCC, DOT and SSA.

With our proven past performance, prime contract vehicles, Government and industry certifications, MicroTech is the ideal partner to team with or to lead any projects you may have.
